11<sup>th</sup> Annual Foster Care & Adoption Conference at Fellowship North Church in Fountain City

## FAVORITE SESSIONS AT THE CONFERENCE

- **“Navigating relationships with biological parents** for its informative tips on what can be difficult or awkward relationships.”
- **“NAS (Neonatal Abstinence Syndrome)** session was helpful to understand the development over a lifetime, even for our teens. Having the science backed with how to move forward with barriers presented by NAS was so helpful!”
- **“Former foster youth:** It was interesting to hear their insights and what helped them and what didn't.”
- **“The adult adoptee panel,** because we just adopted last month and appreciated hearing the perspectives from adoptees. It will help us tailor how we raise our adopted son.”
- **“Dealing with lying, stealing, and other behaviors:** It made me realize why kids behave the way they do and how we as adults can navigate those behaviors.”
